

them to protect the most vulnerable among us. As a doctor and as a legislator, I will always stand for life.

STRONG AMERICAN MILITARY

Mr. JOYCE of Pennsylvania. Madam Speaker, as Congress prepares to consider the National Defense Authorization Act, our Nation continues to face national security threats abroad. I am proud that this legislation protects our military from the administration's reckless spending cuts that would have made Americans less safe. It also provides a 2.7 percent pay raise for our Nation's servicemembers and protects their right to personal expression.

This bill would allow our troops to make their own choice on whether to receive the COVID-19 vaccine. It would prohibit them from being dishonorably discharged for making their own healthcare decisions. Furthermore, this legislation would increase security on our southern border. It acknowledges the record number of illegal crossings which is truly a national security crisis.

With the threat of global terrorism on the rise, now is not the time to allow our borders to be more vulnerable. President Reagan once said that we maintain peace through our strength and that weakness only invites aggression.

Now is the time for a strong United States military. Now is the time for that peace through strength. And now is the time to pass the National Defense Authorization Act and to continue to protect each and every American.

REPRODUCTIVE RIGHTS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Texas (Ms. GARCIA) for 5 minutes.

Ms. GARCIA of Texas. Madam Speaker, women's freedom to choose their reproductive care is under attack by politicians who want to control their decisions.

A woman's freedom to make a decision on this very private, personal matter should be respected and should be left to her alone together with her family and her doctor and guided by her faith.

Politicians and government should have no control. Yet 3 weeks ago, my home State of Texas passed one of the strictest abortion bills in the country which on its face is unconstitutional.

Politicians in Texas are trying to control women's freedom to choose and the progress that we have made in the last 50 years. It also allows anyone—anyone—in the country to file a lawsuit against a provider, family, friend, clergy, Uber driver, Lyft driver, and anyone who assists a woman seeking an abortion. If successful, the plaintiffs get \$10,000.

In fact, just last week two individuals, not even from Texas, filed lawsuits against a doctor from San Antonio who publicly acknowledged that he had performed an abortion outside the

legal limits of this Texas law. One of the plaintiffs even admitted that his reason for filing this suit was the \$10,000 bounty. He needed the money.

This is outrageous and must be stopped. Texas already has some of the most restrictive abortion laws in the country.

Before this law entered into effect, my home State already required women to get mandatory sonograms, and we also have a 24-hour waiting period. Now this law makes existing restrictions even worse.

Texas has almost 7 million women aged 15 to 49 out of a total of 75 million in this age group in the entire country. So we make up now one in ten of the U.S. women of reproductive age. All these women all over Texas now have no choices. Now, effectively, *Roe v. Wade* is meaningless.

Madam Speaker, women's freedom to choose what to do with their bodies is hanging by a thread, and Congress can't sit idle.

Last week, I visited Planned Parenthood's headquarters in my district and heard horrific stories about how this draconian law is affecting women in my region.

On September 1, the day that Texas law took effect, one Texas woman learned she was about 5 weeks pregnant—and still within the new legal limits in the Texas law to obtain an abortion in Texas. But at the same visit she also learned that she had COVID-19. By the time she would finish her quarantine period it would be too late to get an abortion in Texas and she would then have to go out of State for care.

On September 2, Planned Parenthood providers saw a patient for an ultrasound that showed she was under 6 weeks and still within the new legal limits of the Texas law. When she came back the next day after the State mandated 24-hour waiting period, the second sonogram showed she had passed the new legal limit. Overnight she lost access to an abortion in Texas.

Here is another story. A few days after the Texas law took effect, a woman walked into the Planned Parenthood's health center after trying to self-manage an abortion. Having no money or resources, she had turned to the internet where she found some abortion tea. She took it, and it didn't work. The ultrasound showed she was past the new legal limit, and doctors in Texas couldn't help her. She too was now forced to seek care out of State or to continue with her pregnancy.

Then, Madam Speaker, I am sure you heard about tropical storm Nicholas. The storm made landfall during some patients' State mandated 24-hour waiting period. They were hunkered down. They couldn't get to the clinic, and the clinic was closed. They lost their right to an abortion during that time period.

Another case I heard of was from a 44-year-old patient, already a parent, who didn't think she could have any more children but learned that she was

pregnant at 7 weeks, just past the legal limits of the new Texas law. This patient was never planning to stay with her current partner and now, due to this pregnancy, feels pressured to remain in that relationship.

Madam Speaker, these cases are heartbreaking, and I am sure we will hear more and worse because women's lives are at risk. And although I am encouraged to know the Justice Department is acting on this, Congress needs to act, and this is why we must pass H.R. 3755.

HONORING LARRY JOE ALEXANDER OF JERSEYVILLE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. RODNEY DAVIS) for 5 minutes.

Mr. RODNEY DAVIS of Illinois. Madam Speaker, I rise today in honor of Larry Joe Alexander of Jerseyville who passed away on September 6 at the age of 57.

After graduating from Jersey Community High School, Larry attended Worsham College of Mortuary Science and obtained his degree in funeral directing and embalming.

Larry married his true love, Julie Ann Calvey, in 1989. After building a beautiful life together, Julie passed away on May 14, 2016, after a brave battle with cancer.

In 1985 Larry started his career in the funeral home business. In 1992 Larry was elected as the Jersey County Coroner and continued to hold that office until his death. Larry was a member of the First Assembly of God church in Jerseyville, the Jersey County Republican Party, the Shriners, Full Moon Masonic Lodge 341, the Scottish Rite, and many other organizations.

His passing is a loss for the 13th District and everyone who had the pleasure of knowing him. In the past few months, Larry and his daughters have been in the process of creating a scholarship in his wife, Julie's, memory. His daughter, Alyssa, and niece, Kari Jo, have decided to honor both their parents with a joint education scholarship.

Shannon and I send our thoughts and prayers to Alyssa, Kari Jo, and the rest of Larry's family.

Larry, may you rest in peace my friend.

□ 1015

HONORING THE DISTINGUISHED SERVICE OF WILLIAM HAINE

Mr. RODNEY DAVIS of Illinois. Madam Speaker, I rise today to honor my good friend, William Haine, for his distinguished service to the State of Illinois and the American people.

Bill was born in Alton in 1944. He attended St. Patrick's Grade School and Marquette High School in Alton, and received a Bachelor's Degree from St. Louis University. Soon after, he enlisted and served in Vietnam as a member of the First Cavalry Division, earning the Bronze Star for Meritorious Service in Combat Operations.

After returning home from Vietnam, he earned his juris doctorate from St. Louis University, where he met his future wife, Anna.

Bill began his career as a clerk for George Moran of the Fifth Appellate Court District. He soon became an assistant public defender while entering into private practice. Bill's illustrious career of public service began with his election to the Madison County Board. He was then elected to multiple terms as the Madison County State's Attorney and eventually as a State Senator in the 13th District. At the time of Bill's passing just a few weeks ago, he was serving on the Illinois State Board of Elections.

Bill was a member of many civic and religious organizations, including the Knights of Columbus, the Equestrian Order of the Holy Sepulchre of Jerusalem, and the American Legion and VFW.

One of my favorite stories about Senator Haine was when he and his family and his wife, Anna, came to tour Washington, D.C., and I had a chance to take him on the House floor here and on the Senate floor where Bill, who wasn't in the best health when he came, decided to sit down in the Senate, and an overzealous Senate staffer came out and said: "I'm sorry, but that chair is reserved for a Senator." And Bill said: "I'm a Senator."

And I happily reminded that overzealous staffer at the time that it was actually a staff member's chair and Bill was okay sitting there while we showed the glorious splendor of what we get to see every day.

Shannon, my kids, we send our heartfelt prayers to his wife, his seven children, his 38 grandchildren, and his great grandchild.

Bill's commitment to public service was second to none.

HONORING THE SERVICE OF JOE CHAMPLEY

Mr. RODNEY DAVIS of Illinois. Madam Speaker, I rise today to recognize one of my best friends in the world, Joe Champley, who was honored as Taylorville Junior High School's Teacher of the Month for September. Joe has over 30 years of experience serving as a teacher, coach, mentor, and friend to so many in our community.

Joe received Taylorville Junior High School's Red Apple Award which honors his outstanding dedication to students and staff. As an instructor, his compassion and care for kids is unmatched, as is his humor. He teaches because he believes teachers can make a difference in kids' lives, and he hopes to lead them down the right path. And I can count countless numbers of kids who have gone through the junior high school that I went to who Joe has helped.

One of his fondest memories is when he introduced the Illinois Secretary of State, Jesse White, and all the students chanted "Champley needs a raise. Champley needs a raise."

Joe graduated from our high school, Taylorville High School, in 1985, after

having an outstanding career in athletics. During Joe's tenure as a three-year starter on the basketball team, the Tornados won an Apollo Conference Championship and a regional championship; and he happens to still be 16th on the all-time Tornados scoring list.

The Taylorville community, my community, is honored to have leaders like Joe Champley. Joe is somebody who has made a difference in so many lives, and he is going to continue to do that for many years to come.

I wish you the best, Joe, my friend.

REBUILDING OF AMERICA BEGINS NOW

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. BRENDAN F. BOYLE) for 5 minutes.

Mr. BRENDAN F. BOYLE of Pennsylvania. Madam Speaker, we feel the wind of history at our back this week and next. This has been a long time coming. Not since the mid-1960s have we had such an opportunity to do so many big, bold, and historic things as we have in front of us right now; things like paid family leave; modernizing and rebuilding our K-12 public schools, tuition-free community college, universal pre-K; and injecting the single biggest investment in our infrastructure in our Nation's history, roads, bridges, rail, replacing water and sewer lines that have been there for over a century, taking out old gas lines that are dangerous, leaded pipes that have literally cost lives.

This is all right in front of us right now, and here in the House, it hangs by perhaps a few votes. Just one or two votes may make the critical difference.

Every single one of these measures I mentioned is popular, every single one. And it is not just Democrats. Sixty-six percent of Americans support the package I just described. That includes 61 percent of Independents, and even 39 percent of Republicans.

The American people get it. They recognize that we must rebuild America, rebuild our infrastructure in terms of our physical infrastructure and the infrastructure of our society.

Now, some might ask, understandably, okay, all these things sound great, but how are you going to pay for it?

Well, in the Ways and Means Committee, we just put our money where our mouth is. We just put up vote after vote to raise taxes on the richest one-tenth of 1 percent; to raise the revenue necessary to fund every single one of the priorities that I just described.

I understand there are those who want to keep things as they are; who don't believe we should invest in our infrastructure; don't believe we should have paid family leave, even though the rest of the industrialized world has it and has for decades; don't believe that we should have funding for child care.

They want to keep the system the way it is. They like the idea that there was just a \$2 trillion tax cut under the previous administration, none of it paid for and, according to CBO, 83 percent of it going to the richest 1 percent. They are fine with that.

But in terms of reforming our tax system to make the richest Americans pay their fair share and to use that money to invest in the American people, they are opposed to that.

Well, I proudly support it. This will be one of the best votes I cast in my career. This is an exciting, truly transformative time in our Nation's history. It is now incumbent upon all of us in the House, all of us in the Senate, to seize this moment. The rebuilding of America begins now.

ISRAEL'S IRON DOME

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from North Carolina (Ms. FOXX) for 5 minutes.

Ms. FOXX. Madam Speaker, Israel's Iron Dome has saved countless lives from barrages of missiles launched by Hamas.

One would think that the majority would understand this fact and recognize the Iron Dome's significance. However, after caving to the demands of several of their own fringe members yesterday, it is clear they don't have a clue.

Israel has always been a longstanding ally to the United States, and now is not the time to turn our back on Israel.

Madam Speaker, without question, House Republicans are proud to stand with Israel and the Jewish community. Our alliance with them is a testament to our shared values, and it should not be forsaken under any circumstance.

WASHINGTON LIBERALS' PERNICIOUS GRASP

Ms. FOXX. Madam Speaker, there is no issue small enough to escape Washington liberals' pernicious grasp. For one, anonymous bureaucrats demand disgustingly low levels of salt and fat in school lunches even though dieticians acknowledge these ingredients are part of a well-balanced diet.

House Democrats have also passed a bill that would skim the top off workers' paychecks to line the pockets of union bosses, even though those workers are not even union members.

And most recently, Congressional Democrats are pushing a \$3.5 trillion socialist wish list, which the New York Times said "would touch virtually every American's life, from conception to aged infirmity."

While these micromanagers are busy finding new ways to interfere in your personal decisions, dangerous totalitarian nations like China, Russia, and Iran threaten individual liberties and global prosperity. Democrats ought to turn their attention to these existential concerns instead of seeking to impose their agenda on free Americans.

NOW IS THE TIME FOR ANSWERS

Ms. FOXX. Madam Speaker, the American people deserve to know
